APPLICATION FOR A RESTRICTED FACULTY LICENSE

Instructions and Application Form

Introduction:

Please read the following instructions in their entirety. These instructions will assist in the application process for an initial restricted faculty license. This license is for the limited purpose of teaching, including clinical teaching, in a dental school or advanced dental education program as a faculty member at an accredited dental school in this Commonwealth. Under the restricted faculty license, the licensee may not practice dentistry outside the primary facilities of the dental school in this Commonwealth at which the individual is licensed to teach.

The restricted faculty license shall entitle the licensee to engage in direct clinical teaching, which shall include practicing clinical care for the purpose of instructing and teaching students and residents, and supervision of care provided by students and residents, in no more than one area of specialty, only within the educational facilities of a dental school in this Commonwealth that is approved by the Commission on Dental Accreditation of the American Dental Association. Licensees shall be limited to the primary facilities within the dental school, and may not engage in clinical teaching at satellite or other off-campus sites, such as clinics. The practice of dentistry at any satellite or off-campus site requires an unrestricted license to practice dentistry issued by the Board.

The checklist format will assist you in requesting and submitting the appropriate documentation necessary to meet the licensure requirements.
