COMMONWEALTH OF PENNSYLVANIA

TEST PROTOCOL

FOR

RE-EXAMINATION OF

DANAHER CONTROLS, INC.

ELECTRONIC 1242 VOTING SYSTEM

TABLE OF CONTENTS

1.0   INTRODUCTION

The primary purpose of the re-examination is to confirm that the Danaher Controls, Inc. ELECTronic 1242 voting system meets the requirements of Article XI-A of the Pennsylvania Election Code, sections 1101-A to 1122-A, 25 P.S. §§ 3031.1 – 3031.22. This re-examination is being performed per the direction of the Secretary of the Commonwealth, acting through the Pennsylvania Department of State, Bureau of Commissions, Elections and Legislation. This re-examination will commence on February 28, 2012 at the following location:

<div align="center">

Commonwealth Keystone Building
Hearing Room 1
400 North Street
Harrisburg, Pennsylvania

</div>

The daily duration of this re-examination will be from 9:00 A.M. until 5:00 P.M. Eastern Standard Time unless a representative of the Secretary of the Commonwealth requests an extension, suspension, or a halt in testing.

1.1   References

The documents listed below were used in the development of the Test Protocol.

- Article XI-A of the Pennsylvania Election Code, sections 1101-A to 1122-A, 25 P.S. §§ 3031.1 – 3031.22

- Federal Election Commission 2002 Voting Systems Standards

- Help America Vote Act (HAVA) of 2002, Public Law 107-252, 42 U.S.C. § 15301 *et seq.*

- Danaher Controls ELECTronic 1242 System Overview, Revision 3.9, dated March 28, 2006

1.2   Terms and Abbreviation

This subsection lists terms and abbreviations relevant to this re-examination:

"ADA" – Americans with Disabilities Act

"COTS" – Commercial Off-The-Shelf

"Department" – Pennsylvania Department of State

"DRE" – Direct Recording Electronic

"EAC" – Election Assistance Commission

"EMS" – Election Management System

"Examiner" – The examiner appointed by the Secretary of the Commonwealth to conduct the re-examination

"FEC" – Federal Election Commission

"ITA" – Independent Testing Authority

"PA" – The Commonwealth of Pennsylvania

"Pennsylvania Election Code" - Article XI-A of the Pennsylvania Election Code, sections 1101-A to 1122-A, 25 P.S. §§ 3031.1 – 3031.22

"Secretary" – The Secretary of the Commonwealth

"TDP" – Technical Data Package

"VSS" – Federal Election Commission 2002 Voting System Standards

"VVSG" – Election Assistance Commission 2005 Voluntary Voting System Guidelines

1.3 Background

The Danaher Controls ELECTronic 1242 Voting System was certified for use in the Commonwealth of Pennsylvania on November 15, 2005 after an examination conducted pursuant to the Pennsylvania Election Code. The Danaher Controls ELECTronic 1242 has been in use by Pennsylvania counties since its initial certification. Pursuant to section 1105-A of the Pennsylvania Election Code, 25 P.S. § 3031.5, a group of Pennsylvania voters formally requested that the Secretary conduct a re-examination of the Danaher 1242 Voting System. The Secretary granted the request.

The Test Protocol was developed to ascertain whether the certified electronic voting system complies with the requirements set forth in the Pennsylvania Election Code.

2.0 TEST ITEMS

This section contains detailed descriptions of the items tested during the re-examination, including all software, hardware, and peripherals, both proprietary and COTS, and any test support equipment or materials necessary for test performance. The following diagram illustrates the Danaher Controls ELECTronic 1242 Voting System requirements.

**Figure 2.1 System Overview Diagram (Guardian Election Management System Overview)**

Figure 2.2 System Overview Diagram
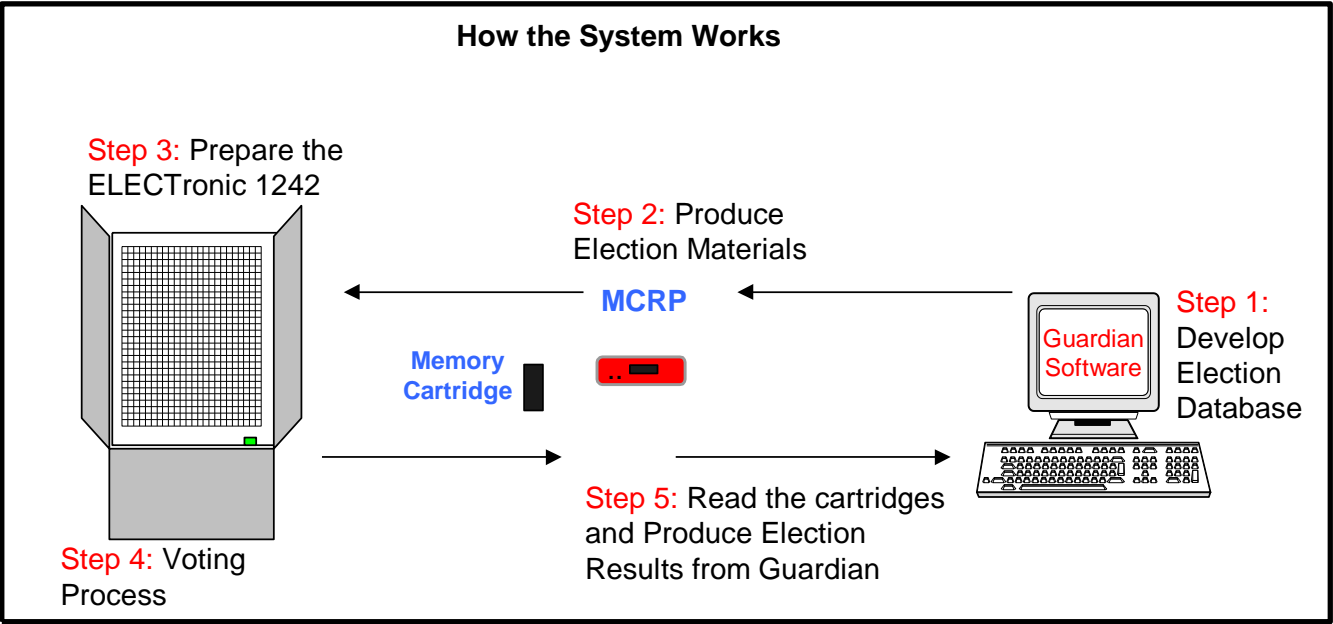

2.1 Software

This subsection contains a listing of the software and firmware being evaluated.

Table 2.1 Software/Firmware

Component Name	Version	Unique Identifier (digital signature or hash value)
Guardian	113056-0001	TBD
GT Audio	113056-0002	TBD
Guardian Reports	113056-0003	TBD
CPU Board #112558-002G	112956-0001	TBD
Matrix Module Board #110487-0001	110797-0001	TBD
Control Panel Board #0613202-003	110797-0001	TBD
Printer Board	110400-0001 (110963-0001)	TBD
MCRP (Memory Cartridge Reader Programmer) #0616457-002	113028-0001	TBD

2.2 Hardware

This subsection contains a listing of the hardware being evaluated.

Table 2.2 Hardware

Component Name	Model Number	Revision Number	Description
ELECTronic 1242 Electronic Voting Machine (EVM)	011154	---	A Direct Recording Electronic (DRE) Voting System used at the precinct level.
Memory Cartridge 5M	---	---	---
Memory Cartridge Reader/Writer Programmer Device (MCRP-USB)	0		A device used for uploading election definition data and downloading post-election data from a memory cartridge.
ADA Keypad	---	---	ADA Keypad comprised mainly of 6 tactile switches, connector cable, a Braille overlay, a printed circuit board and an audio jack.
Windows Based Computer	---	---	---
Plotter	---	---	---
Laser Printer	---	---	---
Head-Set	---	---	---

2.3 Peripherals

This subsection contains detailed descriptions of optional equipment used by the system being evaluated.

Table 2.3 Peripherals

Part Name	Model Number	Revision Number	Description
Desktop Printer	TBD	TBD	COTS Printer to print EMS reports

2.4   Test Support Equipment/Materials

This subsection contains detailed descriptions of the test support equipment and materials needed to perform the required testing.

The Examiner will provide a tape measure (to be used in Test Case 1), Test Execution Logs, and a digital camera for test documentation. The re-examination will be video recorded by the Department.

The voting system manufacturer must provide an EMS system currently certified for use in Pennsylvania loaded with the closed primary and general-election definitions (Appendix A). These election definitions are the ballot configurations that will be used throughout the re-examination. The manufacturer is responsible for providing the Department and the Examiner with technical staff to support the re-examination. The manufacturer must provide three precinct-tabulation devices for each voting system being examined. The manufacturer must be prepared to load the firmware for each precinct tabulation device. The Department will also require manufacturer to configure the precinct tabulation devices as they would be in the precinct on Election Day, including seals and locks. The manufacturer must be prepared to print pre-election reports, precinct results reports, audit logs, and post-election reports.

3.0   TEST MATERIALS

This section contains a detailed description of all materials made available to Examiner for the re-examination.

3.1   Technical Data Package

This subsection lists all manufacturer provided documentation that is relevant to the system being tested.

Table 3.1 Documentation

Document Name	Revision	Issue Date

3.3   Previous Test Results

This subsection describes the results of any previous testing performed by the Department that are relevant to the re-examination and the system being evaluated.

Table 3.3 Previous Test Results

Report Title	Description	Revision	Issue Date

Danaher Controls, Inc. ELECTronic 1242 Voting system	PA Examination	1.0	9/2005

4.0   TEST SPECIFICATIONS

This section contains a detailed description of the procedures to be followed during test setup and preparation.

The re-examination of the voting system will occur in an environmentally controlled room. The room will be configured such that the Department, the Examiner, and the voting system manufacturer have their own independent work areas. The public will be allowed to observe the examination, but may not comment or interact with either the employees of the Department, the Examiner, or the voting system manufacturer, at any time. The manufacturer will be allotted time and space to stage the voting system prior to the re-examination. This time and space will be determined between the Department and the manufacturer in advance of the examination date. Once the manufacturer informs the Department that the voting system is properly set up, the Examiner will provide the manufacturer with the firmware/software for the precinct tabulation device, submitted to the Department from the trusted source. The manufacturer will load the firmware/software on to the required media for installation onto the precinct tabulation device and install the firmware/software onto the precinct tabulation device before commencement of the re-examination.   Once each precinct tabulation device is loaded with the firmware/software, the manufacturer will not be allowed access to the internal components of the devices without the consent of the Department or the Examiner. If the re-examination is suspended, the precinct tabulation devices will be secured in a manner to ensure control of the test environment. If, at any point, the Department or the Examiner determines that the control of the test environment has been compromised, all firmware/software will be reloaded on the precinct tabulation devices.

The voting system manufacturer shall set up the precinct tabulation devices as they would be in the precinct on Election Day, minus the locks and seals. The locks and seals will be installed and evaluated at a later time in the re-examination.

The Examiner will maintain photographic and written documentation of the re-examination. This will include, but is not limited to, photographs of the firmware/software installation, test execution notes and observations, photographs of the test setup, and collection of test data. The Department will video record the re-examination.

5.0   TEST PROCEDURES

This section contains a detailed description of the test sequence, test procedures and expected results.

The test cases for this re-examination are contained in Appendix B of this Test Protocol. All steps of the tests cases contain an expected result to provide objective pass/fail criteria. There are no dependencies for execution of the test cases. The test cases have been divided into four main areas for execution: (1) Review; (2) Targeted Functionality; (3) System Integration; and (4) Penetration Analysis. -The Review area of this re-examination will not be performed on-site during the set dates of the re-examination.   The Review area of testing includes documentation review of third-party reports and review of the manufacturer's TDP. All other areas of testing will be performed on-site during the re-examination. The test sequence for this re-examination will be as follows:

Review:

- 1107-A(11), 25 P.S. § 3031.7(11) Suitably Designed, Constructed in Workmanlike Manner of Durable Material, Safely and Efficiently Useable, Capable of Absolute Accuracy
- 1107-A(13), 25 P.S. § 3031.7(13) Record Correctly, Computes and Tabulates Accurately
- 1107-A(14), 25 P.S. § 3031.7(14) Safely Transportable
- 1107-A(15), 25 P.S. § 3031.7(15) Voter May Readily Learn to Operate

Targeted Functionality Test Cases:

- Test Case Identifier: 01 – 1107-A(1), 25 P.S. § 3031.7(1) Voter Secrecy (Regular Voter)
- Test Case Identifier: 01 – 1107-A(1), 25 P.S. § 3031.7(1) Voter Secrecy (ADA Voter)
- Test Case Identifier: 02 – 1107-A(2), 25 P.S. § 3031.7(2) Selection of Candidates and Questions by Voter (Regular/ADA)
- Test Case Identifier: 03 – 1107-A(3), 25 P.S. § 3031.7(3) Straight Party and Pennsylvania Method
- Test Case Identifier: 04 – 1107-A(4), 25 P.S. § 3031.7(4) Straight Party and Write-In
- Test Case Identifier: 05 – 1107-A(5), 25 P.S. § 3031.7(5) Selection of Candidate and Write-in
- Test Case Identifier: 07 – 1107-A(7), 25 P.S. § 3031.7(7) Attempt to Over Vote Contests and Questions (Regular/ADA)
- Test Case Identifier: 10 – 1107-A(10), 25 P.S. § 3031.7(10) Ballot Review and Change (Regular/ADA)
- Test Case Identifier: 16 – 1107-A(16), 25 P.S. § 3031.7(16) Public Counter, No Reopening of Polls, Media Security with Tamper Proof Locks and Zero Proof and Tally Reports

System Integration Test Cases:

- Test Case Identifier: 04, 06, 08, 09, Permanent Physical Record, and Statistical Sample – 1107-A(4), 25 P.S. § 3031.7(4) Enables Voting for Legal Combinations; 1107-A(6), 25 P.S. § 3031.7(6) Permits Voting for as Many Candidates as Entitled, Permits Voting For or Against Questions, Precludes Voting for Unauthorized Candidates or Questions; 1107-A(8), 25 P.S. § 3031.7(8) Precludes Multiple Voting and Tabulating Multiple Votes; 1107-A(9), 25 P.S. § 3031.7(9) Permits Voter at Primary to Vote Only for Candidates in Party of Registration, Any Candidate for Nonpartisan Nomination, and For Any Entitled Question; 1101-A, 25 P.S. § 3031.1 Provides for Permanent Physical Record of Each Vote Cast; and 1117-A, 25 P.S. § 3031.17 Statistical Sample

Penetration Analysis Test Cases:

- Test Case Identifier: 12 – 1107-A(12), 25 P.S. § 3031.7(12) Acceptable Ballot Security Procedures and Impoundment of Ballots

6.0   TEST DATA

This section contains a detailed description of the test election definitions and ballot logic being exercised.

The election definitions being used for this re-examination are provided in Appendix A of this Test Protocol. A predefined set of election parameters are included in the election definitions. Both the general election and the closed primary election definitions provide the voting variations, geographic subdivisions, parties, supported languages and test voting pattern with results being tested. The only languages required for this re-examination are English and Spanish. The Department provided the Spanish translation. Each test voting pattern provides the input method and device. For all Write-In selections, the name will be input as "John Doe." For multiple Write-In selections, the name will be appended with the character "I" for the number of Write-In selections (*i.e.,* "John Doe I," "John Doe II," "John Doe III," and "John Doe IIII" in a "Vote for Four" contest with four write-ins).

6.1   Data Recording

This subsection contains a detailed description of the procedures to be followed during test execution and data collection.

All test data produced during this re-examination is the property of the Department. The output test data will be collected and stored in an appropriate manner as to allow for data analysis. Actual results from executed tests will be recorded in real-time in Test Execution Logs.

6.2   Data Evaluation

The Examiner will evaluate all test results against the expected results set forth in the test cases provided in Appendix B. The acceptable range for system performance and the expected results is derived from the test designers experience and expertise. If an expected result is not achieved, an evaluation will be performed as to "why" the test or test step did not produce the expected results. This evaluation will consider test error, invalid expectations, and system performance. Failure to achieve the expected results does not constitute a test failure. A test failure only occurs when the "Criteria for Evaluation of Test Results," as set forth in the test cases, are not achieved for a specific test.

ATTACHMENT A

ELECTION DEFINITIONS

Election Definition: Pennsylvania Certification Closed Primary Election

Primary Election Description:

A closed primary election for 2 parties in 3 precincts. This election contains 35 contests compiled into 6 ballot styles. Each ballot style contains 15 contests. The voting variations supported in a primary election by the Commonwealth of Pennsylvania are defined in this election. The voting variations are as follows:

- Partisan contest
- Non-Partisan
- Primary Presidential delegation nominations
- Write-In voting
- N of M Contest
- Cross-Party Filed Candidates

This closed primary election was designed to functionally test the handling of multiple ballot styles across geographical subdivisions, support for two languages, and support for common primary specific voting variations.

Configuration:

EMS computer loaded with software certified for use in Pennsylvania to create the following configuration:

Name: Pennsylvania Certification Closed Primary Election
Voting Devices: 1 machine for each precinct
Precincts: Precinct 1, Precinct 2, Precinct 3
Parties: Republican, Democrat
Languages: English, Spanish
Totals Contests: 35

Election Definition: Pennsylvania Certification General Election

General Election Description:

A general election combining presidential year contests, non-presidential year contests, and municipal contests into a single election held in 3 precincts one of which is a split precinct on the "Representative in the General Assembly" contests. This election contains 21 contests compiled into 4 ballot styles (excluding language styles). 15 of the contests are in all ballot styles. The other 6 are split between at least 2 of the precincts with a maximum of 21 different contests spread across the 3 precincts. All voting variations supported by the Commonwealth of Pennsylvania are defined in this election. The voting variations are as follows:

- Partisan contest
- Non-Partisan contest
- N of M contest
- Referendum contest
- Retention Contest
- Straight Party voting
- Write-In voting
- Split Precinct
- Cross-Party Nominated

This general election was designed to functionally test the handling of multiple ballot styles across geographical subdivisions, support for English and Spanish languages, support for all Pennsylvania voting variations, and audio support for English and Spanish.

Configuration:

EMS computer loaded with software certified for use in Pennsylvania to create the following configuration:

Name: Pennsylvania Certification General Election
Voting Devices: 1 machine for each precinct
Precincts: Precinct 1, Precinct 2 split into 2a and 2b, Precinct 3
Parties: Republican, Democratic, Green, Libertarian
Languages: English, Spanish
Totals Contests: 21

TEST CASES

Test Case Identifier: 01 – 25 P.S. § 3031.7(1) Voter Secrecy (ADA Voter)	
PA ST 25 P.S. § 3031.7 Requirement:	*(1) Provides for voting in absolute secrecy and prevents any person from seeing or knowing for whom any voter, except one who has received or is receiving assistance as prescribed by law, has voted or is voting.*
Test Objective: To determine if a voters selections using an ADA input device can be observed during the act of voting or once a vote has been cast.	**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer for an ADA voter. A marker is placed 12 feet (measured from the lowest point of the devices voting surface to the floor) directly behind the center of the voting device. From that marker, another marker is placed 12 feet to the right side and the left side. The side distance observation points should be approximately 17 feet. See Step 1000 for a layout diagram. The ADA voter will be positioned in the center of the tabulation device with a site line of 4 feet. See Step 1001.
Test Equipment:	Standard 15+ foot tape measure
Special Procedural Requirements:	Two roles are required for this test case. An ADA Voter role and an Observer role. The ADA Voter will be positioned with a line of site at 48 inches. The observation must be made by an individual between the heights of 68 inches and 71 inches.
Assumptions:	An election is loaded on the device and the polls are open, ready for voting.
Step	**Description**
1000	Layout Diagram: Verify all measurements. *Expected:* Center measurement is 12 feet and the side distance observation points are approximately 17 feet. *Actual:*
1001	ADA Voter Position: Verify all measurements. *Expected:* Center measurement is 12 feet and the side distance observation points are approximately 17 feet with a

	voter line of sight at 48 inches. *Actual::*
1010	Observer Role - Activate a ballot for ADA voting. *Expected:* Ballot is presented and vote selections can be input. *Actual:*
1020	ADA Voter Role - Select the candidate corresponding to the upper most left hand position of the ballot presentation. Observer Role - Attempt to ascertain, both audibly and visually, the voters input from the right most position, the center position, and the left most position. ADA Voter's Role - Use the supplied method to advance the ballot to a cast vote state. The only selection should be the upper most left hand position. All other selections are to be under voted. *Expected:* The Observer cannot determine the Voter's input selections. *Actual:*
1030	ADA Voter Role - Select the candidate corresponding to the upper most right hand position of the ballot presentation. Observer Role - Attempt to ascertain, both audibly and visually, the voter's input from the right most position, the center position, and the left most position. ADA Voter's Role - Use the supplied method to advance the ballot to a cast vote state. The only selection should be the upper most right hand position. All other selections are to be under voted. *Expected:* The Observer cannot determine the Voter's input selections. *Actual:*
1040	ADA Voter Role - Select the candidate corresponding to the lower most left hand position of the ballot presentation. Observer Role - Attempt to ascertain, both audibly and visually, the voters input from the right most position, the center position, and the left most position ADA Voters Role - Use the supplied method to advance the ballot to a cast vote state. The only selection should be the lower most left hand position. All other selections are to be under voted. *Expected:* The Observer cannot determine the Voter's input selections.

Pro V&V, Inc.

	Actual:
1050	ADA Voter Role - Select the candidate corresponding to the lower most right hand position of the ballot presentation. Observer Role - - Attempt to ascertain, both audibly and visually, the voters input from the right most position, the center position, and the left most position ADA Voters Role - Use the supplied method to advance the ballot to a cast vote state. The only selection should be the lower most right hand position. All other selections are to be under voted. *Expected:* The Observer cannot determine the Voter's input selections. *Actual:*
Criteria for Evaluation of the Test Results: The observer must not be able to determine the voter's selection from any observation position or any voter selection surface position.	

Test Case Identifier: 01 – 25 P.S. § 3031.7(1) Voter Secrecy (Regular Voter)	
PA ST 25 P.S. § 3031.7 Requirement:	*(1) Provides for voting in absolute secrecy and prevents any person from seeing or knowing for whom any voter, except one who has received or is receiving assistance as prescribed by law, has voted or is voting.*
Test Objective: To determine if a voter's selections can be observed during the act of voting, or once a vote has been cast.	**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer. A marker is placed 12 feet (measured from the lowest point of the devices voting surface to the floor) directly behind the center of the voting device. From that marker, another marker is placed 12 feet to the right side and the left side. The side distance observation points should be approximately 17 feet. See step 1000 for a layout diagram.
Test Equipment:	Standard 15+ foot tape measure
Special Procedural Requirements:	Two roles are required for this test case. A Voter role and an Observer role. The observation must be made by an individual between the heights of 5 feet 8 inches and 5 feet 11 inches.
Assumptions:	An election is loaded on the device and the polls are open, ready for voting.

Step	Description
1000	Layout Diagram: Verify all measurements. *Expected:* Center measurement is 12 feet and the side distance observation points are approximately 17 feet. *Actual:*
1010	Observer Role - Activate a ballot for regular voting. *Expected:* Ballot is presented and vote selections can be input. *Actual:*
1020	Voter Role - Select the candidate in the upper most left hand position of the ballot presentation. Observer Role - Attempt to ascertain, both audibly and visually, the voter's input from the right most position, the center position, and the left most position Voters Role - Use the supplied method to advance the ballot to a cast vote state. The only selection should be the upper most left hand position. All other selections are to be under voted. *Expected:* The Observer cannot determine the Voter's input selections.

Pro V&V, Inc.

	Actual:
1030	Voter Role - Select the candidate in the upper most right hand position of the ballot presentation.

Observer Role - Attempt to ascertain, both audibly and visually, the voter's input from the right most position, the center position, and the left most position

Voter's Role - Use the supplied method to advance the ballot to a cast vote state. The only selection should be the upper most right hand position. All other selections are to be under voted.

Expected: The Observer cannot determine the Voter's input selections.

Actual: |
| **1040** | Voter Role - Select the candidate in the lower most left hand position of the ballot presentation.

Observer Role - Attempt to ascertain, both audibly and visually, the voters input from the right most position, the center position, and the left most position

Voters Role - Use the supplied method to advance the ballot to a cast vote state. The only selection should be the lower most left hand position. All other selections are to be under voted.

Expected: The Observer cannot determine the Voter's input selections.

Actual: |
| **1050** | Voter Role - Select the candidate in the lower most right hand position of the ballot presentation.

Observer Role - Attempt to ascertain, both audibly and visually, the voters input from the right most position, the center position, and the left most position

Voters Role - Use the supplied method to advance the ballot to a cast vote state. The only selection should be the lower most right hand position. All other selections are to be under voted.

Expected: The Observer cannot determine the Voter's input selections.

Actual: |
| **Criteria for Evaluation of the Test Results: The observer must not be able to determine the voter's selection from any observation position or any voter selection surface position.** ||

Test Case Identifier: 02 – 25 P.S. § 3031.7(2) Selection of Candidates and Questions by Voter (Regular/ADA)	
PA ST 25 P.S. § 3031.7 Requirement:	*(2) Provides facilities for voting for such candidates as may be nominated and upon such questions as may be submitted.*
Test Objective: To determine if a voter has the ability to select candidates and questions.	**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer.
Test Equipment:	None
Special Procedural Requirements:	None
Assumptions:	An election is loaded on the device and the polls are open, ready for voting.

Step	Description
1000	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1010	Select the first candidate in the first partisan contest excluding a straight party contest. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for the first candidate in the first partisan contest excluding a straight party contest. *Actual:*
1020	Use the designated method to advance the ballot to the first "N of M" contest. Select the first "N" candidates in the contest. (e.g. in a Vote for Two contest the first two candidates would be selected). *Expected:* The precinct tabulation device advances to the first "N of M" contest. Once selected the precinct tabulation device displays or provides an indication of a vote for the first "N" candidates in the first "N of M" contest. *Actual:*
1030	Use the designated method to advance the ballot to the first "Question" contest. Select the "Yes" option in the contest. *Expected:* The precinct tabulation device advances to the first "Question" contest. Once selected the precinct tabulation device displays or provides an indication of a vote selection for the "Yes" option in the first "Question" contest. *Actual:*
1040	Use the designated method to advance the ballot to the second "Question" contest. Select the "No" option in the contest.

	Expected: The precinct tabulation device advances to the second "Question" contest. Once selected the precinct tabulation device displays or provides an indication of a vote selection for the "No" option in the second "Question" contest. *Actual:*
1050	Use the designated method to advance the "Ballot Review." Observe the "Ballot Review" to see if the above selections are displayed. Use the designated method to cast the voted selections. *Expected:* The precinct tabulation device advances to the "Ballot Review" screen. After review and ballot is cast successfully. *Actual:*

1060	Repeat steps 1000- 1050 from above using an ADA input device.
	
	Expected: Repeat 1000 _____
	           Repeat 1010 _____
	           Repeat 1020 _____
	           Repeat 1030 _____
	           Repeat 1040 _____
	           Repeat 1050 _____
	Actual:

1070	Close the polls and print the closed polls report tape. *Expected:* The polls closed and a report is printed. *Actual:*
1080	Review the closed polls report to ensure all selections input above are recorded and reported correctly. *Expected:* The closed polls report presents the accumulated totals for the selections input above. *Actual:*
Criteria for Evaluation of the Test Results: The intended selections input above are recorded, stored, and reported as input by the tester.	

Test Case Identifier: 03 – 25 P.S. § 3031.7(3) Straight Party and Pennsylvania Method	
PA ST 25 P.S. § 3031.7 Requirements:	*(3) Permits each voter, at other than primary elections, to vote a straight political party ticket by one mark or act and, by one mark or act, to vote for all the candidates of one political party for presidential electors and, by one mark or act, to vote for all the candidates of one political party for every office to be voted for, and every such mark or act shall be equivalent to and shall be counted as a vote for every candidate of the political party so marked including its candidates for presidential electors, except with respect to those offices as to which the voter has registered a vote for individual candidates of the same or another political party or political body, in which case the automatic tabulating equipment shall credit the vote for that office only for the candidate individually so selected, notwithstanding the fact that the voter may not have individually voted for the full number of candidates for that office for which he was entitled to vote.*
Test Objective: To determine if the voting system supports straight party voting and the Pennsylvania Method.	**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer.
Test Equipment:	None
Special Procedural Requirements:	None
Assumptions:	An election is loaded on the device and the polls are open, ready for voting.

Step	Description
1000	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1010	Select the option for the first party selection of the straight party. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for the first party selection in the straight party contest. *Actual:*
1020	Use the designated method to advance through the ballot to each partisan contest. Observe all partisan contests for the indication of a voter selection for all partisan candidates associated with the first straight party selection. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for all the partisan candidates in each contest associated with the first straight party selection. *Actual:*
1030	Use the designated method to advance through the remainder of the ballots advancing to the ballot review screen. Observe the selection in the ballot review observing only the partisan contests associated with the first straight party selections are present. Use the designated method to cast the voted ballot. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for only the partisan contests associated with the first straight party selection. After review the ballot is cast successfully.

	Actual:
1040	Activate a ballot for voting.

Expected: The ballot is presented and vote selections can be input.

Actual: |
| **1050** | Select the option for the second party selection of the straight party.

Expected: The precinct tabulation device displays or provides an indication of a vote selection for the second party in the straight party contest.

Actual: |
| **1060** | Use the designated method to advance through the ballot to each partisan contest. Observe all partisan contests for an indication of a voter selection for all partisan candidates associated with the second straight party selection.

Expected: The precinct tabulation device displays or provides an indication of a vote selection for all the partisan candidates in each contest associated with the second straight party selection.

Actual: |
| **1070** | Use the designated method to retreat through the ballot selections to the first "N of M" contest. Select the first partisan candidate that is not the party associated with the second straight party selection. Leave the remainder of the selections under voted.

Expected: "N" candidates for the party of the second straight party selections should display or provide an indication of the non-selection. The selected candidate should be the only selection displayed or indicated.

Actual: |
| **1080** | Use the designated method to retreat through the ballot to the "Straight Party" contest. Observe the selection for the second straight party selection.

Expected: The second straight party selections should be displayed or an indication given as selected.

Actual: |
| **1090** | Use the designated method to advance through the remainder of the ballot advancing to the ballot review. Review the selections in the ballot review to verify that the partisan contests associated with the second straight party selections are present with the exception of the first "N of M" contest. Use the designated method to cast the voted ballot. |

	Expected: The precinct tabulation device displays or indicates the selection for the partisan contests associated with the second straight party selection for all contests except the first "N of M" contest. The first "N of M" contest displays or indicates the selection of the first candidate that is not associated with the second straight party selection. After review the ballot is cast successfully. *Actual:*
1100	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1110	Select the option for the first party selection of the straight party. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for the first party in the straight party contest. *Actual:*
1120	Use the designated method to advance through the ballot to each partisan contest. Observe all partisan contests for an indication of a voter selection for all partisan candidates associated with the first straight party selection. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for all the partisan candidates in each contest associated with the first straight party selection. *Actual:*
1130	Use the designated method to retreat through the ballot selections to the first "N of M" contest. Select the first partisan candidate that is associated with the first straight party selection. Leave this contest and the remainder of the selections under voted. *Expected:* "N" candidates for the party of the first straight party selections should display or provide an indication of the non-selection. The selected candidate should be the only selection displayed or indicated. *Actual:*
1140	Use the designated method to advance through the remainder of the ballot advancing to the ballot review. Review the selections in the ballot review to verify that the partisan contests associated with the first straight party selections are present with the exception of the first "N of M" contest. Use the designated method to cast the voted ballot. *Expected:* The precinct tabulation device displays or indicates the selection for the partisan contests associated with the first straight party selection for all contests except the first "N of M" contest. The first "N of M" contest displays or indicates the selection of the second candidate that is associated with the first straight party selection and an under vote. After review the ballot is cast successfully.

	Actual:
1150	Repeat steps 1000- 1140 from above using an ADA input device. *Expected:* Repeat 1000 _____ Repeat 1010 _____ Repeat 1020 _____ Repeat 1030 _____ Repeat 1040 _____ Repeat 1050 _____ Repeat 1060 _____ Repeat 1070 _____ Repeat 1080 _____ Repeat 1090 _____ Repeat 1100 _____ Repeat 1110 _____ Repeat 1120 _____ Repeat 1130 _____ Repeat 1140 _____ *Actual:*
1160	Close the polls and print the closed polls report tape. Expected: The polls closed and a report is printed. Actual:
1170	Review the closed polls report to ensure all selections input above are recorded and reported correctly. Expected: The closed polls report presents the accumulated totals for the selections input above. Actual:

Criteria for Evaluation of the Test Results: The intended selections input above are recorded, stored, and reported as input by the tester. The functionality of selecting a candidate of the same party of the straight party selection registers a vote for that candidate and de-selects all candidates for the straight party vote for that contest.

Pro V&V, Inc.

Test Case Identifier:	04 – 25 P.S. § 3031.7(4) Straight Party and Write-In	
PA ST 25 P.S. § 3031.7 Requirements:		*(4) Permits each voter, at other than primary elections, to vote a ticket selected from the nominees of any and all political parties, from the nominees of any and all political bodies, and from any persons whose names are not in nomination and do not appear upon the official ballot.*
Test Objective: To determine if the voting system supports straight party voting and write-in.		**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer.
Test Equipment:	None	
Special Procedural Requirements:	None	
Assumptions:	An election is loaded on the device and the polls are open, ready for voting.	
Step	**Description**	
1000	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*	
1010	Select the option for the first party selection of the straight party. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for the first party selection in the straight party contest. *Actual:*	
1020	Use the designated method to advance through the ballot to each partisan contest. Observe all partisan contests for a display or indication of a voter selection for all partisan candidates associated with the first straight party selection. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for all the partisan candidates in each contest associated with the first straight party selection. *Actual:*	
1030	Use the designated method to advance through the remainder of the ballot advancing to the ballot review screen. Observe the selection in the ballot review observing only the partisan contests associated with the first straight party selections are present. Use the designated method to cast the voted ballot. *Expected:* The precinct tabulation device displays or provides an indication of the selection for only the partisan contests associated with the first straight party selection. After review the ballot is cast successfully. *Actual:*	
1040	Activate a ballot for regular voting. *Expected:* The ballot is presented and vote selections can be input.	

	Actual:
1050	Select the option for the first party selection of the straight party. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection associated with the first party selection in the straight party contest. *Actual:*
1060	Use the designated method to advance to the first partisan contest. Select the write-in option. Input John Doe as the write-in name. *Expected:* The precinct tabulation advances to the first partisan contest and allows the input of the "Write-In" candidate John Doe. *Actual:*
1070	Use the designated method to advance to the ballot review screen. Observe the selections associated with the first straight party selection with the exception of the first partisan contest. Use the designated method to cast the voted ballot. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection associated with the first party selection in the straight party contest with the exception of the first partisan contest which should indicate the write-in input of John Doe. *Actual:*
1080	Activate a ballot for regular voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1090	Select the option for the first party selection of the straight party. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection associated with the first party selection in the straight party contest. *Actual:*
1100	Use the designated method to advance to the first "Question" contest. Select the "Yes" option. Attempt to over vote by selecting the "No" option. Observe the action of attempting to select the second option. *Expected:* The precinct tabulation device displays or provides an indication of an attempt to over vote. The precinct tabulation device might disallow the selection and not display any communication. *.Actual:*
1110	Repeat steps 1000- 1090 from above using an ADA input device.

	Expected: Repeat 1000 _____ Repeat 1010 _____ Repeat 1020 _____ Repeat 1030 _____ Repeat 1040 _____ Repeat 1050 _____ Repeat 1060 _____ Repeat 1070 _____ Repeat 1080 _____ Repeat 1090 _____ Repeat 1100 _____ Repeat 1110 _____ *Actual:*
1120	Close the polls and print the closed polls report tape. Expected: The polls closed and a report is printed. Actual:
1130	Review the closed polls report to ensure all selections input above are recorded and reported correctly. Expected: The closed polls report presents the accumulated totals for the selections input above. Actual:
Criteria for Evaluation of the Test Results: The intended selections input above are recorded, stored, and reported as input by the tester. The functionality of selecting a write-in candidate functions with a straight party selection.	

Test Case Identifier: 05 – 25 P.S. § 3031.7(5) Selection of Candidate and Write-in	
PA ST 25 P.S. § 3031.7 Requirements:	*(5) Permits each voter to vote for any person and any office for whom and for which he is lawfully entitled to vote, whether or not the name of such person appears upon the ballot as a candidate for nomination or election.*
Test Objective: To determine if the voting system supports the selection of a candidate and a write-in candidate.	**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer.
Test Equipment:	None
Special Procedural Requirements:	None
Assumptions:	An election is loaded on the device and the polls are open, ready for voting.

Step	Description
1000	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1010	Select the option for the first candidate in the first partisan contest. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for the first candidate selection in the first partisan contest. *Actual:*
1020	Use the designated method to advance through the remainder of the ballot advancing to the ballot review screen. Observe the selection in the ballot review observing only the first candidate in the first partisan contest is selected. Use the designated method to cast the voted ballot. *Expected:* The precinct tabulation device displays or provides an indication of the selection for only the first candidate selection in first partisan contests. After review the ballot is cast successfully. *Actual:*
1030	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1040	Select the option for a write-in candidate in the first partisan contest. Use the designed method to input "John Doe." *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for a write-in candidate. *Actual:*

| 1050 | Use the designated method to advance through the remainder of the ballot advancing to the ballot review screen. Observe the selection in the ballot review observing only the write-in candidate in the first partisan contest is selected. Use the designated method to cast the voted ballot.

Expected: The precinct tabulation device displays or provides an indication of the selection for only the write-in candidate "John Doe" in first partisan contests. After review the ballot is cast successfully.

Actual: |
|---|---|
| 1060 | *Activate a ballot for voting.*

Expected: The ballot is presented and vote selections can be input.

Actual: |
| 1070 | *Select the option for a write-in candidate in the first "N of M" contest. Use the designed method to input "John Doe" for all selections. Observe any activity to preclude the same input.*

Expected: The precinct tabulation device displays or provides an indication of a duplicate vote selection for a write-in candidate. If no indication is provided then trace the ability to adjudicate the vote through the entire system. It may require the EMS component to verify.

Actual: |
| 1080 | Repeat steps 1000- 1070 from above using an ADA input device.

Expected: Repeat 1000 _____
Repeat 1010 _____
Repeat 1020 _____
Repeat 1030 _____
Repeat 1040 _____
Repeat 1050 _____
Repeat 1060 _____
Repeat 1070 _____ |

Pro V&V, Inc.

	Actual:	
1090	Close the polls and print the closed polls report tape.	
	Expected: The polls closed and a report is printed.	
	Actual:	
1110	Review the closed polls report to ensure all selections input above are recorded and reported correctly.	
	Expected: The closed polls report presents the accumulated totals for the selections input above.	
	Actual:	

Criteria for Evaluation of the Test Results: The intended selections input above are recorded, stored, and reported as input by the tester. The functionality of selecting a candidate and a write-in candidate functions.

Test Case Identifier: 07– 25 P.S. § 3031.7(7) Attempt to Over Vote Contests and Questions (Regular/ADA)	
PA ST 25 P.S. § 3031.7 Requirements:	*(7) If it is of a type that registers the vote electronically, the voting system shall preclude each voter from voting for more persons for any office than he is entitled to vote for or upon any question more than once.*
Test Objective: To determine if the voting device allows over voting on contests and questions.	**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer.
Equipment:	None
Special Procedural Requirements:	None
Assumptions:	An election is loaded on the device and the polls are open, ready for voting.

Step	Description
1000	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1010	Select the first candidate in the first partisan "1 of 1" contest excluding a straight party contest. *Expected:* The precinct tabulation device displays or provides an indication of a vote selection for the first candidate in the first partisan "1 of 1" contest excluding a straight party contest. *Actual:*
1020	Attempt to select the second candidate in the first partisan "1 of 1" contest ensure the contest is the same contest as voted in step 1010. Observe the action of attempting to place a second vote. *Expected:* The precinct tabulation device displays or provides an indication of an attempt to over vote. The precinct tabulation device might disallow the selection and not display any communication. *Actual:*
1030	Attempt to select the write-in option. Observe the action of attempting to input a write-in. *Expected:* The precinct tabulation device displays or provides an indication of an attempt to over vote. The precinct tabulation device might disallow the selection and not display any communication. *Actual:*
1040	Use the designated method to advance the ballot to the first "N of M" contest. Select the first "N" candidates in the contest. (e.g. in a Vote for Two contest the first two candidates would be selected). *Expected:* The precinct tabulation device advances to the first "N of M" contest. Once selected the precinct tabulation device displays or provides an indication of a vote for the first "N" candidates in the first "N of M" contest.

	Actual:
1050	Attempt to select the "N +1" candidate in the first "N of M" contest ensure the contest is the same contest as voted in step 1040. Observe the action of attempting to place an over vote. *Expected:* The precinct tabulation device displays or provides an indication of an attempt to over vote. The precinct tabulation device might disallow the selection and not display any communication. *Actual:*
1060	Use the designated method to advance the ballot to the first "Question" contest. Select the "Yes" option in the contest. *Expected:* The precinct tabulation device advances to the first "Question" contest. Once selected the precinct tabulation device displays or provides an indication of a vote for the "Yes" option in the first "Question" contest. *Actual:*
1070	Attempt to select the "No" option in the first "Question" contest ensure the contest is the same contest as voted in step 1060. Observe the action of attempting to place an over vote. *Expected:* The precinct tabulation device displays or provides an indication of an attempt to over vote. The precinct tabulation device might disallow the selection and not display any communication. *Actual:*
1080	Use the designated method to advance the "Ballot Review". Observe the "Ballot Review" to see if the above selections are indicated. Use the designated method to cast the voted selections. *Expected:* The precinct tabulation device advances to the "Ballot Review" screen. After review and ballot is cast successfully. *Actual:*

1090	Repeat steps 1000- 1080 from above using an ADA input device.
	
	Expected: Repeat 1000 _____
	               Repeat 1010 _____
	               Repeat 1020 _____
	               Repeat 1030 _____
	               Repeat 1040 _____
	               Repeat 1050 _____
	               Repeat 1060 _____
	               Repeat 1070 _____
	               Repeat 1080 _____

	Actual:	
1100	Close the polls and print the closed polls report tape. *Expected:* The polls closed and a report is printed. *Actual:*	
1110	Review the closed polls report to ensure all selections input above are recorded and reported correctly. *Expected:* The closed polls report presents the accumulated totals for the selections input above. *Actual:*	

Criteria for Evaluation of the Test Results: The intended selections input above are recorded, stored, and reported as input by the tester. The attempts to select more persons than the vote for and any question more than once are unsuccessful.

Test Case Identifier: 10 – 25 P.S. § 3031.7(10) Ballot Review and Change (Regular/ADA)	
PA ST 25 P.S. § 3031.7 Requirements:	(*10*) *If it is of a type that registers the vote electronically, the voting system shall permit each voter to change his vote for any candidate or upon any question appearing on the official ballot up to the time that he takes the final step to register his vote and to have his vote computed.* *If it is of a type that uses paper ballots or ballot cards to register the vote and automatic tabulating equipment to compute such votes, the system shall provide that a voter who spoils his ballot may obtain another ballot; any ballot thus returned shall be immediately cancelled and at the close of the polls shall be enclosed in an envelope marked "Spoiled" which shall be sealed and returned to the county board.*
Test Objective: To determine if the voting device allows the voter to review the selections and change a vote selection before casting of the ballot.	**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer.
Test Equipment:	None
Special Procedural Requirements:	None
Assumptions:	An election is loaded on the device and the polls are open, ready for voting.

Step	Description
1000	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1010	Select the first candidate in the first all "1 of 1" contest excluding a straight party contest, the first "N" candidates in all "N of M" contests, and select the "Yes" option in all "Question" contests. *Expected:* The precinct tabulation device allow for the navigation and the voting inputs to be selected as described above. *Actual:*
1020	Use the designated method to advance the "Ballot Review." Observe the "Ballot Review" to see if the above selections are indicated. *Expected:* The precinct tabulation device advances to the "Ballot Review" screen. The vote selections can be verified. *Actual:*
1030	Use the designated method to retract to the first partisan "1 of 1" contest excluding the straight party contest. *Expected:* The precinct tabulation device navigates to the first partisan "1 of 1" contest excluding the straight party contest. *Actual:*

Pro V&V, Inc.

1040	
	Deselect the first candidate selection and select the second candidate.
	Expected: The precinct tabulation device indicates the de-selection of the first candidate and the select of the second candidate.
	Actual:
1050	
	Use the designated method to advance to the first "Question" contest. De-select the "Yes" option and select the "No" option.
	Expected: The precinct tabulation device navigates to the first "Question" contest and provides an indication of the de-selection of the "Yes" option and a selection of the "No" option.
	Actual:
1060	
	Use the designated method to advance the "Ballot Review." Observe the "Ballot Review" to see if the above selections are indicated. Use the designated method to cast the voted selections.
	Expected: The precinct tabulation device advances to the "Ballot Review" screen. After review and ballot is cast successfully.
	Actual:
1070	
	Repeat steps 1000- 1060 from above using an ADA input device.
	Expected: Repeat 1000 _____ Repeat 1010 _____ Repeat 1020 _____ Repeat 1030 _____ Repeat 1040 _____ Repeat 1050 _____ Repeat 1060 _____ *Actual:*
1080	
	Close the polls and print the closed polls report tape.
	Expected: The polls closed and a report is printed. *Actual:*

| 1090 | Review the closed polls report to ensure all selections input above are recorded and reported correctly.

Expected: The closed polls report presents the accumulated totals for the selections input above.

Actual: |
|---|---|

Criteria for Evaluation of the Test Results: The intended selections input above are recorded, stored, and reported as input by the tester. The voter input can be changed by navigating through the ballot after a ballot has been reviewed.

Test Case Identifier: 16 – 25 P.S. § 3031.7(16) Public Counter, No Reopening of Polls, Media Security with Tamper Proof Locks and Zero Proof and Tally Reports.	
PA ST 25 P.S. § 3031.7 Requirements:	*(16) If the voting system is of a type which provides for the computation and tabulation of votes at the district level, the district component of the automatic tabulating equipment shall include the following mechanisms or capabilities:* *(i) A public counter, the register of which is visible from the outside of the automatic tabulating equipment component into which the ballots are entered, which shall show during any period of operation the total number of ballots entered for computation and tabulation.* *(ii) A lock, or locks, by the use of which all operation of the tabulation element of the automatic tabulating equipment is absolutely prevented immediately after the polls are closed or where the tabulation of votes is completed.* *(iii) It shall be so constructed and controlled that, during the progress of voting, it shall preclude every person from seeing or knowing the number of votes theretofore registered for any candidate or question; and it shall preclude every person from tampering with the tabulating element.* *(iv)If the number of choices recorded for any office or on any question exceeds the number for which the voter is entitled to vote, it shall reject all choices recorded on the ballot for that office or question, provided, that if used during the period of voting it may also have the capacity to indicate to a voter that he has improperly voted for more candidates for any office than he is entitled to vote for, and in such case it shall have the capacity to permit the voter to mark a new ballot or to forego his opportunity to make such correction.* *(v) It shall be equipped with an element which generates a printed record at the beginning of its operation which verifies that the tabulating elements for each candidate position and each question and the public counter are all set to zero and with an element which generates a printed record at the finish of its operation of the total number of voters whose ballots have been tabulated, the total number of votes cast for each candidate whose name appears on the ballot, and the total number of votes cast for, or against, any question appearing on the ballot.*

Test Objective: To determine if the voting device has a public counter, does not allow the reopening of the polls, and supplies a zero proof and tally report.	**Test Configuration:** Precinct tabulation device configured as described for normal election day operation by Pennsylvania procedures and/or the device manufacturer. This includes all security locks and seals.

Test Equipment:	None
Special Procedural Requirements:	None
Assumptions:	The election media is installed but the polls have not been opened.

Step	Description
1000	Ensure media is loaded but the polls have not been opened. Use the designated method to open polls. If a response is needed to print "Zero Proof" report, select this option. *Expected:* The precinct tabulation device opens the polls and prints a "Zero Proof" report. *Actual:*
1010	Activate a ballot for voting. *Expected:* The ballot is presented and vote selections can be input. *Actual:*
1020	

	Use the designated method to navigate to the straight party contest. Select the first selection in the straight party contest. *Expected:* The precinct tabulation device navigates to the first straight party contest, allows the input of the first selection, and indicts the first selections was input. *Actual:*
1030	Use the designated method to advance the "Ballot Review." Observe all selections for the party associated with the selection for the first straight party selection are selected. Observe the public counter value being 0. *Expected:* The precinct tabulation device navigates to the "Ballot Review" screen. The public counter is visible and the value is 0. *Actual:*
1040	Use the designated method to cast the voted selections. Observe the acknowledgement of "successful" ballot cast if provided, and the public counter incrementing by one. *Expected:* The precinct tabulation device successfully cast the ballot and the public counter is incremented. If the ballot was not cast successfully the test is halted. *Actual:*
1050	Close the polls and print the closed polls report tape. *Expected:* The polls closed and a report is printed. *Actual:*
1060	Use the designated method to attempt to reopen the polls. *Expected:* The polls cannot be reopened. *Actual:*
1070	Place lock on precinct tabulation device per Pennsylvania Procedures to ensure all operation of the tabulation element is prevented. *Expected:* The precinct tabulation device can by secured so that all operation of the tabulation element is prevented. *Actual:*
1070	Review the closed polls report to ensure all selections input above are recorded and reported correctly.

Pro V&V, Inc.

	Expected: The closed polls report presents the accumulated totals for the selections input above.
	Actual:

Criteria for Evaluation of the Test Results: The intended selections input above are recorded, stored, and reported as input by the tester. The voting device is able to produce a "Zero Proof" and "Tally Report." The voting device has a visible public counter and the counter increments correctly.

Test Case Identifier: 04, 06, 08, 09, Permanent Physical Record, and Statistical Sample – 25 P.S. §§ 3031.7(4), (6), (8), (9); 3031.1; and 3031.17 System Integration	
PA ST 25 P.S. § 3031.7 Requirements:	*(4) Permits each voter, at other than primary elections, to vote a ticket selected from the nominees of any and all political parties, from the nominees of any and all political bodies, and from any persons whose names are not in nomination and do not appear upon the official ballot.* *(6) Permits each voter to vote for as many persons for any office as he is entitled to vote for and to vote for or against any question upon which he is entitled to vote and precludes each voter from voting or from having his vote tabulated for any candidate, or upon any question, for whom or upon which he is not entitled to vote.* *(8) Precludes each voter from voting or from having his vote tabulated more than once for any candidate for the same office or upon any question, except in districts and for offices where cumulative voting is authorized by law.* *(9) Permits each voter at a primary election to vote only for the candidates seeking nomination by a political party in which such voter is registered and enrolled, and for any candidate for nonpartisan nomination, and for any question upon which he is entitled to vote.*
PA ST 25 P.S. § 3031.1 Requirements:	*"ELECTRONIC VOTING SYSTEM" means a system in which one or more voting devices are used to permit the registering or recording of votes and in which such votes are computed and tabulated by automatic tabulating equipment. The system shall provide for a permanent physical record of each vote cast.*
PA ST 25 P.S. § 3031.17 Requirements:	*The county board of elections, as part of the computation and canvass of returns, shall conduct a statistical recount of a random sample of ballots after each election using manual, mechanical or electronic devices of a type different than those used for the specific election. The sample shall include at least two (2) per centum of the votes cast or two thousand (2,000) votes whichever is the lesser..*

Test Objective:
This area of testing will focus on the system being able to perform a general and a closed primary from ballot design to reporting of results.

Test Configuration:
The system integration testing will execute a general and a primary election from ballot design through vote accumulation, consolidation and reporting. The election definitions will include all supported voting variations, languages, multiple ballot styles, and ADA voting. Two election definitions will be defined and executed according to a predefined voting pattern. All requirements tested in the targeted functionality testing will be monitored including accuracy throughout system integration testing.

Test Method:
The method for testing these requirements is defined as follows:

Provide an election definition that contains multiple ballot styles based on geographical subdivision in both a general   election and a closed primary and tests that each vote is counted only once.

Two elections will be utilized to perform System Integration Testing:
- PA Certification General Election
- PA Certification Closed Primary Election

This test will be performed by evaluating the system from the pre-voting state of loading the media and obtaining pre-voting reports through the post-voting state of accumulation of voted data and printing of post-election reports. All documented steps will be followed to perform this test.

- Election definition and ballot layout coded prior to test
- Print pre-election report for ballot layout, precinct summary, and election summary
- Load election media
- Install election onto the precinct tabulation device
- Open polls and print zero proof report

- Vote pre-defined voting pattern
- Closed polls and print results tapes
- Print audit logs
- Perform a 10% statistical sample
- Harvest permanent physical record
- Load election results into EMS
- Print precinct summary and election summary reports
- Collect and analyze all data

Criteria for Evaluation of the Test Results:
All intended selection input by the tester are recorded, stored and reported accurately.

Test Case Identifier: 12 – 25 P.S. § 3031.7(12) Penetration Analysis	
PA ST 25 P.S. § 3031.7 Requirements:	*(12) Provides acceptable ballot security procedures and impoundment of ballots to prevent tampering with or substitution of any ballots or ballot cards.*

Test Objective:
This area of testing will focus on the current documented procedures and configuration to ensure that the physical and access secure measures provide a determined level of security. *Depending on the scope of this project this may be performed by a third-party expert.*

Test Configuration:
The voting system will be configured as would be for a polling place with all security precautions in place.

Test Method:
The method for testing these requirements is defined as follows:

Test steps will be followed to evaluate the physical and access controls and procedures in place for the storage of voted ballots. This test will be performed by evaluating the system to ensure that all access areas and seals and/or locks provide adequate security from external access. The tester will:

- check all seal and/or locks and attempt to open the system

- verify that the ballot storage device is secure by attempting to insert and retrieve ballots without removing any seals and/or locks

- verify that any needed supplies can be accessed by the poll worker without allowing access to the ballots or internal components of the voting system

- verify that the system counter cannot be reset by any unauthorized person at any unauthorized point

- attempt to bypass the security environment by various methods such as disabling the printer, removing power, and any other means to try and compromise the votes

- exercise verification of password security management at all levels (operating system, application and component)

Criteria for Evaluation of the Test Results:
All intended access controls are in place and are sufficient.

25 P.S. § 3031.5. Examination and approval of electronic voting systems by the Secretary of the Commonwealth

(a) Any person or corporation owning, manufacturing or selling, or being interested in the manufacture or sale of, any electronic voting system, may request the Secretary of the Commonwealth to examine such system if the voting system has been examined and approved by a federally recognized independent testing authority and if it meets any voting system performance and test standards established by the Federal Government. The costs of the examination shall be paid by the person requesting the examination in an amount set by the Secretary of the Commonwealth. Any ten or more persons, being qualified registered electors of this Commonwealth, may, at any time, request the Secretary of the Commonwealth to reexamine any electronic voting system theretofore examined and approved by him. Before any reexamination, the person, persons, or corporation, requesting such reexamination, shall pay to the Treasurer of the Commonwealth a reexamination fee of four hundred fifty dollars ($450). The Secretary of the Commonwealth may, at any time, in his discretion, reexamine any such system therefore examined and approved by him. The Secretary of the Commonwealth may issue directives or instructions for implementation of electronic voting procedures and for the operation of electronic voting systems.
