

Special Notice

Graduate Training in Psychology

At its April 24, 2013 meeting, the Pennsylvania Board of Psychology confirmed that it will continue to interpret the definition of “graduate training in psychology” contained in 49 Pa. Code 41.1 consistent with its statement in *The Pennsylvania Bulletin* on June 5, 2010 (Vol. 40, Number 23, p. 2947) which provides that the Board will “*interpret this provision as including graduate coursework which could apply to a doctoral degree, including coursework from terminal master’s degree programs.*”

(<http://www.pabulletin.com/secure/data/vol40/40-23/1037.html>). The Board's interpretation of "graduate training in psychology" does not require enrollment in a doctoral degree program.
