

Commonwealth of Pennsylvania

The Pennsylvania Voter Registration Act

**A REPORT TO THE PENNSYLVANIA GENERAL ASSEMBLY
ON THE ADMINISTRATION OF ACT 25 OF 1995**

JUNE 30, 1998

DEPARTMENT OF STATE

**GOVERNOR TOM RIDGE
SECRETARY OF THE COMMONWEALTH YVETTE KANE**

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF STATE
HARRISBURG, PENNSYLVANIA
17120

SECRETARY OF THE COMMONWEALTH

June, 1998

Members of the General Assembly:

As Secretary of the Commonwealth, I am pleased to report to you on the administration of the Pennsylvania Voter Registration Act for the calendar year 1997. I am proud of the progress we continue to make working with county election and voter registration officials and representatives from other state agencies to increase voter registration and voter participation among the citizens of this Commonwealth. At year's end, **7,096,914** Pennsylvanians were registered to vote, surpassing all previous voter registration totals. The Department of State continues to reach out to these registered voters to encourage them to participate in the electoral process.

We have expanded our efforts to increase voter awareness in the Commonwealth. In 1997, Governor Tom Ridge proclaimed September as Voter Participation and Awareness Month. The Department of State also unveiled the *Pennsylvania Voter Exhibit and State Voter Hall of Fame*. The permanent exhibit documents the state's political heritage and includes the names of the men and women in the Commonwealth who voted in every November election for 50 consecutive years. Since 1996, the Ridge Administration has inducted more than 2,400 Pennsylvanians from 17 counties into the Voter Hall of Fame.

In October 1998, the department, in partnership with the Department of Education, will again sponsor the Student Mock Election. In record numbers, students (K-12) from all 67 counties will participate in an exercise which promotes citizenship and the privilege to vote among young people.

Through the department's website, Pennsylvanians now have convenient access to voter registration statistics, election dates, results and other information. Last year, Pennsylvania became one of the first states in the nation to tabulate and post election results to the internet on Election Night. With our new electronic campaign finance reporting system, the public now has internet access to reports filed by statewide candidates. I encourage you to access our website at www.dos.state.pa.us.

I also encourage you to visit the Pennsylvania Voter Exhibit located on the third floor of the North Office Building. If you have any questions regarding the enclosed update on the implementation of the Pennsylvania Voter Registration Act, my staff and I stand ready to assist you.

Sincerely,

Yvette Kane

Secretary of the Commonwealth

1997 Report to the General Assembly on the Pennsylvania Voter Registration Act

The following summarizes the continued implementation of the Pennsylvania Voter Registration Act (PVRA); incorporates suggestions for improvements to the Act and also provides relevant voter registration statistics. Since last year's report, several improvements have been incorporated at our agency based registration programs which are highlighted below.

Department of Transportation

Last year, State Department personnel continued to provide instruction, information, and assistance to all agencies required to offer voter registration opportunities. In 1997, county voter registration officials received 344,565 motor voter registration applications. The department worked closely with the Department of Transportation to improve the voter registration operations and customer service at PennDOT photo license centers. On April 30, 1998, all photo license centers began issuing paper receipts to individuals who applied for voter registration. In addition, the computer screens at the photo license centers were redesigned to be more user friendly.

In June 1997, the PennDOT change of address procedures were modified to include the prior name of an individual who reports a change of name or address to PennDOT. In addition, individuals who change their address with PennDOT are now given the option to have the change affect their voter registration. These modifications helped county voter registration officials to process 963,281 change of address applications received from PennDOT in 1997.

Agency Registration

We continue to work with the public assistance and disability agencies which provide voter registration opportunities to their clients. In 1997, we published two issues of *Voter Registration Update*. This newsletter provides important information to each agency site coordinator regarding voter registration procedures and deadlines. We also worked with the Clerks of the Orphans' Court, who provide voter registration opportunities to their customers as mandated by the PVRA. We surveyed the clerks to determine the scope of their voter registration program and to find out how the Department of State can be of assistance to them. Staff members attended the Annual Meeting of the Register of Wills and Clerks of Orphans' Court Association to review the clerks' responsibilities.

Litigation Update

During 1997, settlement negotiations were discontinued and then, after a lengthy period of discovery, reinitiated in the litigation brought by the United States Department of Justice and a group of private plaintiffs concerning the Commonwealth's compliance with the National Voter Registration Act (NVRA). By the year's end, substantial disagreements existed between the parties and it appeared that the plaintiffs would move for trial. However, as this report was being prepared, further discussions led to the plaintiffs' voluntary dismissal of most of their claims.

The stipulation to dismiss the claims without prejudice was based on the Commonwealth's written agreement to adhere to certain registration procedures, most of which were already being followed. The stipulation of dismissal was recently reviewed and endorsed by Judge Ronald D. Buckwalter of the United States District Court for the Eastern District of Pennsylvania.

The only major, unresolved issue in the case involves the plaintiffs' allegation that the Commonwealth must designate additional offices and programs, State-funded but not State-operated, to provide voter registration services to their clients with disabilities. The parties intend to engage in further discussions regarding a non-trial disposition of that issue. The department is hopeful that a final resolution of the NVRA litigation can be achieved by the end of 1998.

Legislative Initiatives

In the last two annual reports, the department recommended several legislative amendments to the PVRA and the Election Code. Some of these changes have been made. With the enactment of Act 18 of 1998, the allowable size of each election district was increased from 800 to 1200 electors and the allowable minimum population for a voting compartment in counties using paper-based voting systems was also increased from 100 to 200. These changes to the Election Code will be helpful to counties and allow them to better accommodate the increase in voter registration. Other substantive changes to the Election Code include:

- A provision that changes the number of specimen ballots counties are required to print for each election;
- A provision that permits electors in most counties to apply for an absentee ballot when he/she is absent from his/her municipality on the day of an election; and
- A provision that increases the penalty for violations of provisions relating to absentee voting.

Other suggested legislative amendments identified in the prior annual reports still remain unresolved. The Department of State continues to support these changes:

- Adding two new sections to the Election Code to mirror the fail-safe voting procedures enacted by the PVRA;
- Amending sections applicable to the district register to allow the use of a digitized signature list to mirror those corresponding sections of the PVRA; and
- Amending the Election Code to provide that an elector requiring assistance may sign a declaration of assistance at the time of voting - mirroring the requirements of the PVRA.

We also seek to amend the PVRA to correct inaccurate statutory references and correct a number of implementation problems. The proposed amendments to the PVRA include the following:

- Contain a deadline for changes of address received by the Department of Transportation to be effective for the next election;
- Eliminate the transfer of registration records from county to county if a registrant has moved to another county and the county of former residence has been notified of such change by the Department of Transportation;
- Eliminate superfluous information on the voter's identification card;
- Eliminate the costly requirement that a county implement an annual mailing program to identify electors whose addresses may have changed in favor of a bi-annual mailing program that is in conformance with the NVRA of 1993;
- Eliminate the requirement that the Secretary of the Commonwealth set fees for public lists which are prepared and distributed by the counties;
- Make the requirement that the counties provide for computer inquiries about registered voters optional rather than mandatory;
- Delineate further procedures for registrants receiving assistance to vote; and
- Clarify procedures for counties using the National Change of Address program and/or mass confirmation mailings.

Conclusion

This concise report outlines our efforts to effectively administer the Pennsylvania Voter Registration Act. The voter registration statistics for the period covered in this report are attached for your review.

Appendices

Statistics for the period covered by this report are contained in Appendix I through Appendix VII.

- Appendix I contains voter registration figures by county and political party as of December 31, 1997.
- Appendix II contains a comparison of voter registration totals from 1995 - 1997 as of the close of registration prior to the November Elections.
- Appendix III contains data for the various voter registration methods. Total applications include new registrations, changes of address, changes of name or party regardless of whether the application was valid, rejected or a duplicate. Valid applications include only new registration applications which were accepted by the county voter registration commissions.
- Appendix IV contains data relative to list maintenance activities in the counties for the period covered by this report. These activities include the number of changes of address received from PennDOT and processed, the number of address verification notices mailed in accordance with Section 1901 (d)(2) of the PVRA, the number of registration files marked inactive at the end of 1997, and the number of active and inactive voter registrations which were canceled.
- Appendix V contains data for "motor voter" applications broken down by political party. This information is provided directly from DataCard Corporation, the contracted vendor who processes the applications for the Departments of State and Transportation. Because it is a centralized computer process, statistics can be provided by political party. It should be noted that these statistics relate to the number of individuals who applied to register to vote at a photo license center and not valid applications. Also, the total number of applications as provided by DataCard may differ from the counties' total applications received from PennDOT for a variety of reasons, including not having been received by the counties until the next reporting period.
- Appendix VI contains the number of changes of address received by PennDOT which were forwarded to the county voter registration commissions. These numbers differ from the numbers the counties report (Appendix IV) because they include all changes reported to PennDOT regardless of whether or not the individual was registered.
- Appendix VII depicts a breakdown of the distribution of the voter registration mail application.

APPENDIX VII

COMMONWEALTH OF PENNSYLVANIA 1997 Voter Registration Mail Application (VRMA) Distribution

In addition to the organizations listed below, the Department of State also distributed 1,565,760 VRMAs to county voter registration offices. The department also received 971 individual requests for VRMAs. Many were received through the internet.
