

Continuing Education Waiver for 2025 Renewal

Although the State Board of Massage Therapy (Board) believes that all massage therapists can benefit from continuing education, those massage therapy licensees who have been issued an initial license during the current biennium (February 1, 2023, through January 31, 2025) will be granted a waiver of the 24-hour continuing education requirement for licensure renewal in January 2025.

Licensees who qualify for this waiver do not need to submit a letter requesting the waiver. Upon receipt of notification that the massage therapy license is due for renewal, a licensee must apply for renewal and should answer yes to “Have you met your continuing education requirements.”

Please note that the waiver DOES NOT apply to the Act 31 Child Abuse Recognition and Reporting CE requirement. The course used to obtain initial licensure cannot be used to meet the renewal requirement.
