2013 REPORT TO THE GENERAL ASSEMBLY

PENNSYLVANIA DEPARTMENT OF STATE

Secretary of the Commonwealth**

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF STATE

June 30, 2014

Dear Members of the General Assembly:

As Secretary of the Commonwealth, I am pleased to report to you on the administration of voter registration in Pennsylvania for calendar year 2013. I trust you will find this report useful.

Voter registration in Pennsylvania is a joint state-county effort. During 2013 the Department of State (Department) continued its partnership with the state's sixty-seven county election boards and voter registration commissions. The Department continues to collaborate with the Commonwealth agencies designated with responsibilities under the National Voter Registration Act of 1993 (NVRA) to administer voter registration programs. The Department supports the agencies in terms of providing needed supplies as well as conducting training sessions and informational meetings.

The Statewide Uniform Registry of Electors (SURE) system, implemented in Pennsylvania through Act 3 of 2002, continues to work well to insure the uniformity and integrity of voter registration across the state. As of December 31, 2013, there were approximately 8.2 million registered voters in Pennsylvania. We remain confident the SURE system will continue to be an integral part of the success of Pennsylvania's electoral process well into the 21st century.

The Department remains committed to fulfilling its responsibilities under the Help America Vote Act of 2002. We plan to use remaining federal funds to ensure continued compliance with the requirements of this Act.

If you have questions about this report, please contact the Bureau of Commissions, Elections and Legislation at (717) 787-9201.

Sincerely,

A handwritten signature in cursive script that reads "Carol Aichele".

The Administration of Voter Registration in Pennsylvania
2013 Report to the General Assembly

In 2013, the Department of State (Department) worked closely with the public, each of the sixty-seven county voter registration offices, Commonwealth agencies designated with voter registration responsibilities, and voter registration advocacy groups. This report represents a summary of initiatives and statistics that support voter registration administration in Pennsylvania.

Department of Transportation

Since 1995, the Pennsylvania Department of Transportation (PennDOT) has played an integral role in the voter registration process. PennDOT provides Commonwealth citizens with an opportunity to apply to register to vote while receiving or renewing their driver's license at a PennDOT photo license center. In 2013, more than 230,000 individuals applied to register to vote using this resource.

Application Process to Register to Vote at a Photo License Center

- PennDOT customers visit a photo license center with a driver's license application card provided by PennDOT. The application card contains a printed two-dimensional bar code. The bar code is scanned and the computer system determines the customer's age. It then determines which customers will be at least eighteen years old by the date of the next election and asks if the customer wishes to apply to register to vote;
- The program is designed to ask customers if they are currently registered to vote. If not, they are provided the opportunity to apply to register;
- Customers must confirm that they are U.S. citizens and qualified to register in the Commonwealth;
- Customers who choose to apply to register to vote are asked to confirm their county of residence and indicate a party preference. The customer is asked for optional information (telephone number and race);
- Customers are advised of the penalty for furnishing false information and are asked to sign a declaration that the information they have provided is true and correct to the best of their knowledge;
- Customers are provided a receipt indicating pertinent information about their voter registration application, including the date on which they applied at the photo license center. The receipt instructs customers to contact their county voter registration office if they do not receive a voter identification card within two weeks.

The completed applications are transmitted electronically by PennDOT's contracted vendor to the Department, which in turn forwards the applications to each county voter registration office

via the Commonwealth's Statewide Uniform Registry of Electors (SURE). In 2013, the vendor transmitted 235,683 "motor voter" applications to the Department.

PennDOT provides address change information to the Department. The Department forwards the information to the appropriate county voter registration office. In 2013, a total of 708,340 change of address applications were forwarded from the Department to county election officials.

Agency Registration

The 1993 National Voter Registration Act (NVRA) requires that "(1) Each state shall designate agencies for the registration of voters in elections for Federal offices. (2) Each state shall designate as voter registration agencies – (A) all offices of the state that provide public assistance; and (B) all offices in the State that provide State-funded programs primarily engaged in providing services to persons with disabilities."

In light of this Federal mandate, the Department continues to work with the covered agencies to ensure that the requirements of the NVRA are being met. In 2010 the Department took an additional step to promote more accurate tracking; bar codes were added to the agency specific voter registration applications. The bar code is in addition to the letter code, which was added in 2009. The bar code is automatically read by the SURE System (Statewide Uniform Registry of Electors) when the voter registration application is scanned to capture the voter's signature. This ensures that all agency based registrations are captured, thus providing for a more accurate picture of registrations resulting from the Department's efforts, and subsequently the public assistance agencies efforts to comply with the requirements of the NVRA.

In 2012 the Department coordinated with one of the Commonwealth's largest agencies, the Department of Public Welfare (DPW), to incorporate the voter registration form in packets mailed to DPW clients who obtain benefits through the county assistance offices. This change ensures compliance with the NVRA and accomplishes that goal in a more efficient and cost-effective manner.

In addition to implementing the aforementioned changes, the Department continued throughout 2013 to improve its delivery of the following training and educational services:

- Revised and reissued *Pennsylvania's Guide to Agency-Based Voter Registration* to provide client-focused training for agency and site coordinators;
- Created additional training materials that simplified the instructions for agency personnel;
- Supply agencies with voter registration applications (pre-coded and bar coded) and posters;
- Work cooperatively with officials from other agencies to more closely monitor and coordinate the reporting of agency voter registration totals;

- Communicate with county voter registration officials regarding entry of agency forms into the voter registration database in order to ensure more accurate tracking of activity relating to agency clients who applied to register to vote or changed their registration;
- Ongoing communication with the designated Agency Coordinators.

In 2013, the Department also continued working with state-operated public assistance agencies and agencies that serve people with disabilities to provide registration opportunities to clients. The following agencies participated:

The Help America Vote Act (HAVA): Act 150 of 2002 and Act 97 of 2004

President George W. Bush signed the Help America Vote Act (HAVA) of 2002 into law on October 29, 2002. HAVA's main objective is uniform and non-discriminatory election administration. The Act contains several provisions related to voter registration, language and physical accessibility.

Pennsylvania enacted Act 150 of 2002 to incorporate many HAVA requirements into the Pennsylvania Election Code. Act 97 of 2004 made additional amendments to procedures applicable to provisional ballots.

Distribution of HAVA Funds

The Department of State, through the Division of HAVA, disbursed \$6,237,099.81 from the Title I, Section 101 and Title II, Section 251 and 261 funds. These funds were reported in the

Department's annual reports to the U.S. Election Assistance Commission (EAC) and were disbursed using the quarterly reporting process. The funds were used for HAVA allowable expenditures, including:

- Complying with Title III
- Improving Administration of Federal Elections
- Educating Voters
- Training Election Officials
- Improving Voting Systems
- Polling Place Accessibility
- Alternative Language Assistance, and
- Establishing a Toll-Free Hotline for Voters

Polling Place Accessibility Statewide Survey and Financial Assistance

The Division of HAVA completed a statewide survey on polling place accessibility for all sixty-seven counties in Pennsylvania. Updates are maintained for each county on a yearly basis. HAVA uses the information gathered from the Accessibility Surveys to allocate money from HAVA, Title II, Section 261 to the counties. Reimbursements are made to the county once the money requested has been spent. In 2013, the Commonwealth of Pennsylvania (Commonwealth) allocated an additional \$458,011.00 for Polling Place Accessibility and ADA voting systems. This allocation also covered educating election officials, volunteers and voters on accessibility and any accessibility issues that may arise.

The Statewide Uniform Registry of Electors (SURE); Act 3 of 2002

SURE is the centralized voter registration and election management system designed to assure the accuracy and integrity of the Commonwealth's voter registration records maintained by the election authorities in Pennsylvania's 67 counties. The SURE system is a platform that supports the critical functions of the Commonwealth's elections—from determining voter eligibility to assigning precincts to producing poll books. A centralized, uniform registry that is accessible to all county offices greatly enhances the overall accuracy and integrity of the voter registration rolls and the resulting quality of voter services.

Pennsylvania began development of its centralized voter registration system with the enactment of Act 2002-3 (Act 3). Act 3 set forth the requirements for the system, specifying that SURE must be a "single, uniform integrated computer system. All [voter registration] commissions shall be connected electronically to the SURE system and shall maintain their registration records in the system." Act 3 also made a number of amendments to the voter registration act that make voter registration processes more amenable to electronic processing.

HAVA contains numerous requirements for improving the conduct of elections across the United States. One of these requirements is the establishment of a statewide voter registration system in each state, which must be a "single, uniform, official, centralized, interactive computerized statewide voter registration list defined, maintained, and administered at the State level that

contains the name and registration information of every legally registered voter in the State and assigns a unique identifier to each legally registered voter in the State..." (See § 303(a)(1)(A), 42 U.S.C. § 15483(a)(1)(A)). The SURE system went "live" in all Pennsylvania counties prior to the January 1, 2006, HAVA deadline.

As the SURE project developed and expanded, it became apparent that there were many areas of voter registration and election management that could be addressed and improved outside of the SURE system. The Department embarked on the SURE Portal project in 2005 in order to pursue these opportunities, while taking advantage of the progress that has been made in the Commonwealth with the SURE system.

Following the completion of a Gap Analysis on the project in January 2007 to assess future needs, the Department, in consultation with the Governor's Office of Administration, pursued a contract with a vendor later that year to re-host the SURE system program. The primary objective of the SURE Rehosting Project was to migrate the SURE system application from its outdated Microsoft Access platform to a more state-of-the art technology based on the Microsoft .NET platform. The Rehosted SURE system was deployed to production in December 2008, and improvements continue to be made to the system to enhance functionality and performance. Because the Commonwealth now owns and maintains the SURE system programming code, the Department will be able to make enhancements to the system in the years ahead based on the needs of users and of the Commonwealth.

The overall goals of the SURE Portal are:

- To make use of SURE information to support an expanded array of services and functionality for county, agency and public users;
- To move some critical county processes outside of the SURE environment, optimizing performance for the official registration system;
- To make SURE information more readily available for county, agency and public use and reference;
- To provide streamlined, electronic processes to county offices to support voter registration and elections;
- To make voter registration and election information available to the public via the Internet;
- To provide necessary functionality required for Elections & Campaign Finance services.

Three separate functional areas make up the SURE Portal: the Public Portal, the County Portal and the Agency Portal.

On the SURE Public Portal (available at www.pavoterservices.state.pa.us), voters may:

- Search for and view their own registration and polling place information, including directions to their polling place;
- Print a voter registration application and absentee ballot request form;
- Access valuable information regarding the elections process in their own counties, including information on voting systems and county-specific office information, polling place information, news, FAQs, events and links;

- Search for the status of their absentee ballot requests;
- Search for the status of their provisional ballots;
- Participate in a threaded online discussion;
- Search for a *Voter Hall of Fame* inductee;
- Review scanned petitions submitted for the election cycle;
- Search and review Campaign Finance reports online;
- Ability for the public to purchase the PA Voter Export file online;
- Qualified military and civilian overseas voters can electronically retrieve absentee balloting materials as required under UMOVA.

Many of the Public Portal functions have been integrated into the Department's online voting information and resource center, available at www.votespa.com.

The SURE County Portal was developed with the intent of expanding the range of voter registration and election management functions that can be performed by county users outside of the SURE system proper. Users of the County Portal do not necessarily have to be users of the SURE system. This makes it possible to allow temporary workers, for example, to perform many election-related duties without accessing the SURE system. This ability allows counties to expand their data entry capacities to successfully handle the large number of voter registration applications that are typically received during federal election years. The County Portal provides the following functions to county users:

- Voter search capability;
- Scanning and data entry of voter registration applications (entered into the Portal and imported into SURE via the Dynamic Import Process);
- Posting of county-specific office information, polling place information, news, FAQs, events and links to the SURE Public Portal;
- Poll book printing;
- Uploading official absentee balloting materials for military and overseas voters;
- Entry, processing and certification of provisional ballots;
- Voter registration statistics certification;
- Report generation and printing;
- Exporting of report data;
- Verification of voting system software;
- Upload of election returns to the Department;
- Electronic completion of Department surveys;
- Entry of election results for certification to the Department.

The Public Kiosk was developed so that county election offices may, if they choose, provide a public computer terminal to customers so that they can access many features of the SURE Portal in the county office. Public users of the **Kiosk** have the ability to perform the following functions:

- Search for and view voter registration information for any voter in the county (after completing an affirmation and showing identification to an election official);
- Change their voter registration information or complete a new application electronically (application is submitted directly to SURE for processing by the county);
- Access valuable information regarding the elections process in their own counties, including information on voting systems and county-specific news, FAQs and links;
- Search for the status of their provisional ballots.

The functionality provided to Department users by the SURE Agency Portal includes the ability to:

- Research registered voters through the lookup capability as requests are received;
- Accept voter registration statistics and election returns from county voter registration offices electronically via the SURE Portal;
- Post statewide news, links, FAQs and voting system information to the SURE Public Portal;
- Manage the dissemination of official absentee balloting materials uploaded by county users via the SURE County Portal for military and overseas voters;
- Send to County Portal users ad hoc surveys that can be completed and returned electronically;
- Report generation and printing;
- Exporting of report data;
- Manage the election calendar;
- Scan, electronically review and accept candidate petitions and paperwork;
- Manage the Department of State Elections database which includes candidate, office, election results and statistical information;
- Electronically post candidate list details to assist counties with ballot preparation;
- Manage the Department of State Campaign Finance database which contains candidate, candidate committee, lobbyist registrations, and submitted Campaign Finance Statements & Reports;
- Automatically distribute to candidates and committees communications relating to Elections & Campaign Finance requirements;
- Ability to upload Pennsylvania Voter Hall of Fame information to display on the SURE Public Portal.

The SURE Agency Portal also provides the ability for the Department to deploy **Public Kiosks** for customer use.

Changes to SURE Proper (SURE VR) and the SURE Portals

In 2013, the Department deployed one major software release and several mini builds of SURE VR and the SURE Portal applications, which implemented enhancements to existing functionality as well as new features within the applications, including:

Software releases and deployment dates:

SURE Systems, Version 14 – February 2013

Version 14 release contained 8 software changes to the SURE VR and SURE Portal systems including, but not limited to the following:

- Enhancements to Voter Information reports and updates to the Absentee Ballot related reports.
- Improvements to the processing of absentee ballot applications.
- Introduced a web-based application that enables state agencies that distribute voter registration mail in applications to enter the number of applications distributed. The system maintains total inventory of the applications on site for each agency and it provides for automatic notification when the supply of voter registration forms needs to be replenished.
- System performance improvements that provides for reduced processing time when large batches of required correspondence are generated and sent to voters.

Version 14 release contained 10 software changes to the SURE Portal Election system, including the following:

- Enhancements to save candidate documents which are linked to the candidate record.
- Improvements to the process for scanning and reviewing candidate nomination petition packets.
- Ability for the SURE Portal Election system to print Commissions and Election Certificates.
- Addition of functionality to allow for precinct level election returns to be uploaded into the SURE Portal Election system by county election officials for certification purposes.

Version 14 release contained 10 software changes to the SURE Portal Campaign Finance system including, but not limited to the following:

- Validations relating to terminated candidate and committee records have been applied to ensure records of this status are not assigned future reporting due dates.
- Introduction of a bar code on the online Campaign Finance Reports & Statements to more efficiently identify the filer and reporting cycle, eliminating data entry.
- Modifications and clarifications to the correspondence distributed to candidates and committees relating to late filings.

SURE VR System, HAVA Verification Finalization Process – July 2013

The HAVA Verification Finalization Process was enhanced in the SURE VR system including the following modifications:

- HAVA Verification process was streamlined and developed to be more user-friendly.
- Modifications to combine three separate HAVA Verification Exception Notices into a single correspondence that clearly informs a voter of the reason why the information provided could not be verified.
- Automated the process to finalize the voter registration applications when a voter does not respond to the Exception Notice that is generated when an applicant's personal identifying information cannot be verified.

SURE Portal System, Election Night Returns – August 2013

Enhancements to the Election Night Returns process were implemented in August 2013 prior to the 2013 Municipal Election. This application is used by county election officials to electronically submit unofficial election night returns to the Department of State via the SURE Portal and immediately reflected on the website.

Campaign Finance Online Search – October 2013

Modifications to the Campaign Finance Online Search functionality were deployed in October 2013 based on user feedback to improve and simplify the search functionality within the application.

The Department continues to explore ways in which SURE and the SURE Portal may be improved and enhanced to allow citizens, as well as county and state officials, to participate more fully in the election process. SURE will inevitably continue to play an important role in the future of the Commonwealth's system of elections.

Pennsylvania Voter Hall of Fame

The Pennsylvania Voter Hall of Fame program is administered by the Department of State, Division of Voter Registration. The program was established to promote awareness and encourage all Pennsylvanians to exercise their right to vote. The Voter Hall of Fame publically honors Pennsylvanians who have voted in at least fifty consecutive November elections. The inductees serve as ambassadors in their communities – they lead by example, hoping that others will emulate them and start a tradition of voting regularly.

In 2013, the Department inducted 238 citizens from twelve counties into the *Pennsylvania Voter Hall of Fame*. The 238 new members bring total membership to 21,010, with the membership spanning 64 counties throughout the Commonwealth. As an ongoing recognition the Department maintains a display on the third floor of the North Office Building in Harrisburg.

Appendix D

Summary of data relative to list maintenance activities in the counties.

List maintenance activities include:

- Confirmation Mailings
- National Change of Address Program
- PennDOT Change of Address reports
- 5 Year Notice Mailings
- Death Notifications from the Department of Health

(The “motor voter” litigation settlement agreement permits the counties to send out five-year notices in accordance with Section 1901 (b)(3) of Act 3.)

In some instances the five-year notices were mailed in the prior calendar year and the responses to the notice received in 2013.

Appendix E

A summary of data for “motor voter” applications by political party.

This information is provided directly by the contracted vendor who processes the applications for the Department and PennDOT. These statistics relate to the number of individuals who applied to register to vote at a photo license center. The total number of applications provided by the contracted vendor may differ from the counties’ total applications received from PennDOT for a variety of reasons, including not having been received by the counties until the next reporting period.
